UNRESTRICTED - CARING FOR ST. TAMMANY

Unrestricted gifts are vital to any nonprofit organization. They are a flexible and powerful form of support that ensures adequate funds are there for St. Tammany Health System whenever it needs it for what it needs the most.

COLLEAGUE CHOICE FUND

This is a fund run by an all-employee committee. The purpose of this committee is to take ideas and recommendations from colleagues on programs, projects or equipment that they want to see in the hospital. This allows for passion projects to be considered by colleagues, for colleagues.

COLLEAGUE BENEVOLENT FUND

St. Tammany Health System's Colleague Benevolent Fund (formerly known as "EBF") was created to assist colleagues of the hospital in immediate need of necessities of life due to circumstances and/or conditions beyond their control.

DEPARTMENT- SPECIFIC GIVING AND OTHER AREAS OF NEED

Other areas you can support include Medical Education (unrestricted), or your department's own fund!

THE ONE HEARTBEAT EMPLOYEE GIVING CAMPAIGN
JUNE 28 - AUGUST 2, 2024

ONE HEARTBEAT

CARING FOR OUR COMMUNITY TOGETHER,
ONE HEARTBEAT AT A TIME.

LEARNING TOGETHER

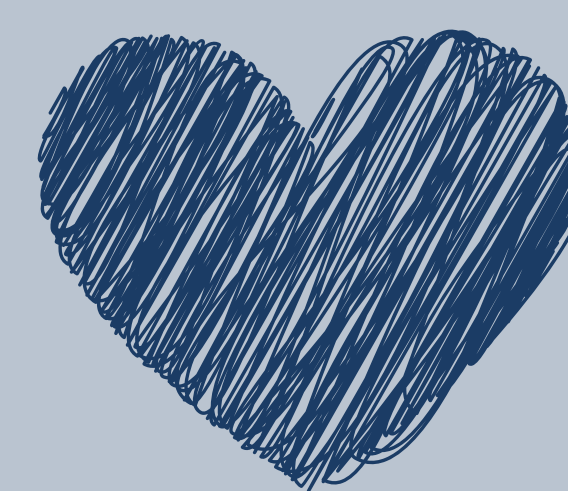

Since its inception in 2007, this colleague-led initiative has promoted personal and professional development for colleagues in a variety of ways. From the purchase of educational manikins to funding select certifications and seminars, colleagues can apply to use these funds for continuing education opportunities they can bring back to their departments.

ST. TAMMANY CANCER CENTER - UNRESTRICTED

Cancer affects countless lives in our community, and our cancer center relies on generous contributions to sustain their patients as they undergo treatment. Gifts made to STCC will support things like the Transportation Assistance Program, Therapeutic Food Pantry and Integrative Oncology.

HEALING ARTS INITIATIVE

This program works with a committee of community leaders and volunteers to provide soothing environments in all STHS facilities and hosts annual in-house exhibitions of original art that promote local artists, including colleagues. Our innovative and nationally renowned program is dedicated to transforming the healthcare experience by connecting people with the power of arts at key moments in their lives.

NURSING EXCELLENCE FUND

STHS's commitment to excellence begins with its patient care and its nurse team. This fund supports nursing programs and initiatives that promote excellence through the Professional Enhancement Program, formal recognition programs, nursing education and training, and other needs of nurses or individual teams as they arise.
